

Fatima Mathivha

Monitoring & Evaluation: Specialist Coordinator

fatima@jet.org.za

Fatima comes from an academic and research background in international development where she developed an interest in monitoring and evaluation. She holds an MPhil in Monitoring and Evaluation and has two years' experience in monitoring and evaluation as a consultant. This has included international and local evaluations across sectors. With extensive experience in all phases of the project cycle, she has particular expertise in qualitative data analysis and data visualisation. At JET, Fatima is responsible for coordination and implementation of monitoring and evaluation projects, including evaluation design, project planning, data collection, data management, analysis and report writing.
